**DETAILED ACTION**

Examiner acknowledges response by applicant's representative received  
8/20/04.

Examiner withdraws the Double Patenting rejections of the first action.  
Examiner further apologizes for the delay in prosecution.

***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-13, 17-21 & 22-27 are drawn to a Method of Playing a four-part wagering game classified in class 273, subclass 292.
- II. Claims 14-16 & 28-45 drawn to a Method of Playing a three-part wagering game classified in class 273, subclass 292.

The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as a method of playing a game mandating four wagers that could be assigned in a variety of unknown ways. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
